The third annual Values Based Interprofessional Education and Practice Workshop will be held on 9th. October 2019 and this year is entitled:

"The Fourth Revolution- opportunities and challenges"

Significant changes in technology and AI are evolving within health and social care. It is vital in this context that health care science continues to be delivered in a person centred way with health and social care professionals driving the changes as the fourth industrial revolution is embraced. Ensuring humanized care in this context provides opportunities to incorporate principles of both Values-Based Practice and Interprofessional Education.

Hosts: The Values-Based Interprofessional Education and Practice Network, The Collaborating Centre for Values-Based Practice

Venue: St Catherine's College, Oxford.

Timing: 9.45 am-4 pm.

Participants: Network members and other interested individuals

Workshop Format.

The day will include a session by Ed Peile who will present his work on Fusion Science teaching. It will also include a session by Andrew West who will present his work on different ways of active listening - a skill fundamental to humanized care.

There will be opportunities during the day to work in groups, and during the afternoon opportunities for you to discuss individual initiatives and to discuss in more detail the opportunities and challenges of the fourth revolution involving AI and how we should be influencing developments.

Aims for the day:

To promote activities that can bring together VBP and IPE and Practice

To look at processes for making the link between VBP and IPE and Practice.

To extend and consolidate communities of practice.

To clarify the future development of the Network.
Learning outcomes.

On completion of the workshop, participants will have:

Increased knowledge of and greater awareness of the link between Values Based Practice (VBP) and IPE and Practice.

Greater knowledge of the practical application of the principles of VBP and IPE and Practice in ensuring humanized care within the changes of technology and AI.

Applied knowledge/skills and how this will inform future practice.

Strengthened the links within the Network.

The facilitators for the day will be:

Laura Chalmers - Academic Lead for Interprofessional Education, Robert Gordon University, Aberdeen.

Dr Richard Gray–Honorary Fellow of CAIPE.

Prof Ashok Handa – Director Surgical Education and Surgeon

Clair Merriman - Head of Professional Practice Skills, Oxford Brookes University

Dr Liz Westcott – Research Fellow, Oxford Brookes University

Timetable for the day.

9.15am  Registration

9.45am  Welcome, introductions, background and ground rules.

10am   VBP and IPE in the fusion sciences teaching for healthcare scientists. Ed Peile

10.30am Discussion- practical application to VBP and IPE and practice

11.15am Coffee

11.45am “Listen! An exploration of what, why, and how”. Andrew West

12.05pm Discussion- practical application to VBP and IPE and practice

12.45pm Lunch

1.45pm  IPE and compassion.

AI and machine learning in supporting decision making. Ashok Handa

2.15pm The fourth revolution - opportunities and challenges

3.15pm Application to work place and new initiatives.

3.45pm Closing remarks

4 pm  Finish.
Presenters on the day.

**Andrew West.**

Andrew is a project partner with the Collaborating Centre for VB Practice, and a Child and Adolescent Psychiatrist recently retired from Berkshire Healthcare NHS Trust. He has been a trainer, appraiser, supervisor, mentor, and coach with the Trust and the Thames Valley and Wessex NHS Leadership Academy. He now directs Developmental Conversations.co.uk, writes, and is a member of Oxford Improvisers.

**Ed Peile.**

Ed is a Fellow of three Royal Medical Colleges, he holds the President’s Medal of the Academy of Medical Educators for lifetime achievement in medical education and in 2017 was awarded Honorary Fellowship of the Academy. He is actively engaged with the Collaborating Centre at St Catherine’s College, Oxford. Over the past year he has developed Degree Apprenticeship and BSc and Masters degrees for Digital Healthcare Science at the University of Warwick.

**Ashok Handa.**

Ashok is a vascular surgeon in Nuffield Department of Surgical Sciences and Tutor for Surgery; Co-Director of the Collaborating Centre and Lead for the VB Surgical Care programme.
